## CWG 23® Models (Grand Auditorium)

Including: Cutaway, 1-piece Mahogany Neck, Ebony Fretboard, Gotoh 510 tuners (branded), Hiscox PRO II Case (branded), Scale length: **650mm**, Width at nut: **46mm** / Spacing: nut 38 (7,6) mm; bridge 52 (10,4) mm - others see **OPTIONS List**

CWG 23 models provide 22 full frets and offer the typical straight string line to the tuning pegs since 1995  
Tuning stability and this special balance due to equal pressure angles

**M Models:** complete closed matt finish; stronger carved back / additional punch; purfling on top

**HGM Models:** closed matt finish / top & headplate highgloss; stronger carved back / additional punch; purfling on top

**HG (Custom) Models:** highgloss body & headplate / neck closed satin matt finish; medium carved back / open concert sound; purfling on top and back, headstock binding

**Tonal Note:** Highgloss tops on HGM and HG models provide an even slightly finer tone. Satin matt lacquered tops on M models give a bit more woody, dry tone.

All models have the well-known fast response, excellent sound separation, dynamics and overtone response.

### BASIC Oveng Model

Top: **Alpine Spruce** Back&Sides: **Ovangkol**

**Sound description:** excellent tonal separation, defined bass, powerful upper mids provide a very good "cut through the mix" in band structure and by strumming with clear, but without too intrusive highs.

CWG23s Oveng M	<b>3.612,00 €</b>	<b>4.299,00 €</b>

## How To Order

Aside from the odd available showroom guitar, I mostly build to order.

Don't hesitate to ask for other models and/or options or your general custom order. I am happy to assist.

When all details are discussed/described, I create a detailed "binding order" which represents the order after mutual examination and signature.

From binding order I charge a **deposit of 20%** of the total estimated price. This is not cancelable.

The deposit establishes the price and estimated delivery time, secures its place on the waiting/order list, and covers a portion of the material/wood/provisioning and planning costs at the estimated delivery date. If there is any change to the delivery time/payment schedule on your part, please talk to me. Generally, deposits are non-refundable and incurred building costs will be invoiced at completion latest.

Remaining balances to the full order total are due upon completion, upon pickup, prior to shipment.

Feel free to ask about availability and waiting times.

I would be happy to assist you in ordering your new
